General Accounting Office, 2003 OCLC Number: (OCoLC)53706191 Subject: Computer security -- United States. Excerpt: . . . For the federal government, we have reported since 1996 that poor Significant information security is a widespread problem with potentially devastating 14 Weaknesses Persist in consequences. Although agencies have taken steps to redesign and strengthen their information system security programs, our analyses of Federal Information information security at major federal agencies have shown that federal Security systems were not being adequately protected from computer-based threats, even though these systems process, store, and transmit enormous amounts of sensitive data and are indispensable to many federal agency operations. For the past several years, we have analyzed audit results for 24 of the largest federal agencies and found that all 24 had significant 15 information security weaknesses. Further, we have identified information security as a governmentwide high-risk issue in reports to the Congress 16 since 1997 - most recently in January 2003. As we reported in November 2002, our analyses of reports issued from October 2001 through October 2002, continued to show significant weaknesses...
